SITUATION SUMMARY

Southern California

The Southern Region Emergency Operations Center has returned to Level I in response to San Bernardino County activation for the Etiwanda fire and the City of Los Angeles and County of Los Angeles activation for May Day activities.

Etiwanda Fire – CA-BDF-006646, San Bernardino County

Per ICS-209 dated 5/02/2014 at 0600 hours

Fire Information:

- Size: 1,627 (No Change) acres, 53% (No Change) contained
- Heavy demobilization of resources expected today
- Structures Threatened: 1000 mixed commercial and residential
- Total Personnel Committed: 929 (No change)

Evacuations and Shelters

- All mandatory evacuations have been lifted.
- All shelters were closed on 5/1 at 1900 hours.

SITUATION SUMMARY (Cont.)

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Seasonal Readiness – Phase 1 of the State Contingency Plan for Excessive Heat Emergency

- With the approach of summer, though the state remains in the Phase I Alert condition of Seasonal Readiness, as outlined in the State Contingency Plan for Excessive Heat Emergency. State Agencies/Departments are advised to review existing plans, procedures and resources, to facilitate preparedness for and response to possible excessive heat events, and closely monitor the situation and inform Cal OES of any heat related issues or concerns.
- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

***** Contingency Plan For Excessive Heat Emergencies *** [Attached](#)**

SITUATION SUMMARY (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction began April 22, 2014 on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets. The Caltrans Traffic Management Center (TMC) reports no issues to date with the project or the traffic in the area.
- Please see “Fix 50” slides for additional information, including [alternate routes](#).

SITUATION SUMMARY (Cont.)

Fix50 Project Update: Friday, May 2

Fix50 Eastbound Phase 1 is complete. Last night, crews successfully moved through traffic from the outside lanes to the inside three lanes. 2-3 through lanes will be open. Here are some updates:

Progress over the last 24 hours:

- Completed grinding and grooving on new deck
- Completed joint seal installation
- Sealed and restriped the newly completed lanes
- Moved K-rail barriers
- Removed overhead sign structures
- Shifted through traffic to the inside lanes
- Closed the following ramps:
 - 11th Street On-ramp
 - 16th Street On-ramp
 - Southbound Highway 99 Connector Ramp
 - Eastbound Business 80 Connector Ramp

Over the next 24 hours, crews will:

- Start barrier demolition.
- Start bead blasting the deck. It will continue over the next couple of days. Beads are contained, collected and reused.

In the coming week:

- Approach slabs and conforms excavation
- Drilling and grinding pavement on outer eastbound lanes and shoulder
- Dowel bars and rebar install
- Sign install

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A low pressure system over the North Pacific will slowly move toward the West Coast through the weekend bringing a cooling trend and a chance of showers.

San Francisco Weather:

A noted cooling trend will begin today along the coast as the marine layer returns. A strong sea-breeze this evening will allow low clouds and fog to spread well inland by Saturday morning. This will lead to cooler temperatures by Saturday afternoon for inland areas. Near or slightly below normal temperatures will continue through early next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

A cooling trend is expected today through the weekend as high pressure over the West Coast breaks down and shifts eastward. Daytime highs will drop from near record yesterday to just under normal by Sunday. Showers are possible late Sunday into early next week as a Pacific low pressure system pushes into the Pacific Northwest and Northern California. A slight chance of thunderstorms exists over the northern mountains Monday afternoon. Wednesday should be mainly dry under a weak high pressure ridge with near normal temperatures returning but Thursday will see a threat of showers over the northern mountains again as another system passes to the north of the Sacramento Valley.

Hanford Weather:

Temperatures expected to remain above normal through Saturday with slight cooling Sunday. Mostly clear skies expected to prevail. Continued cooling is expected early next week as a trough of low pressure moves across Central California.

WEATHER SYNOPSIS BY REGION: (Con't)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure aloft will continue the hot weather for most areas today, except some cooling along the coastal plain. As a trough of low pressure approaches for the weekend, a cooling trend will begin bringing temperatures to near normal by Sunday with the cooling continuing the first half of next week.

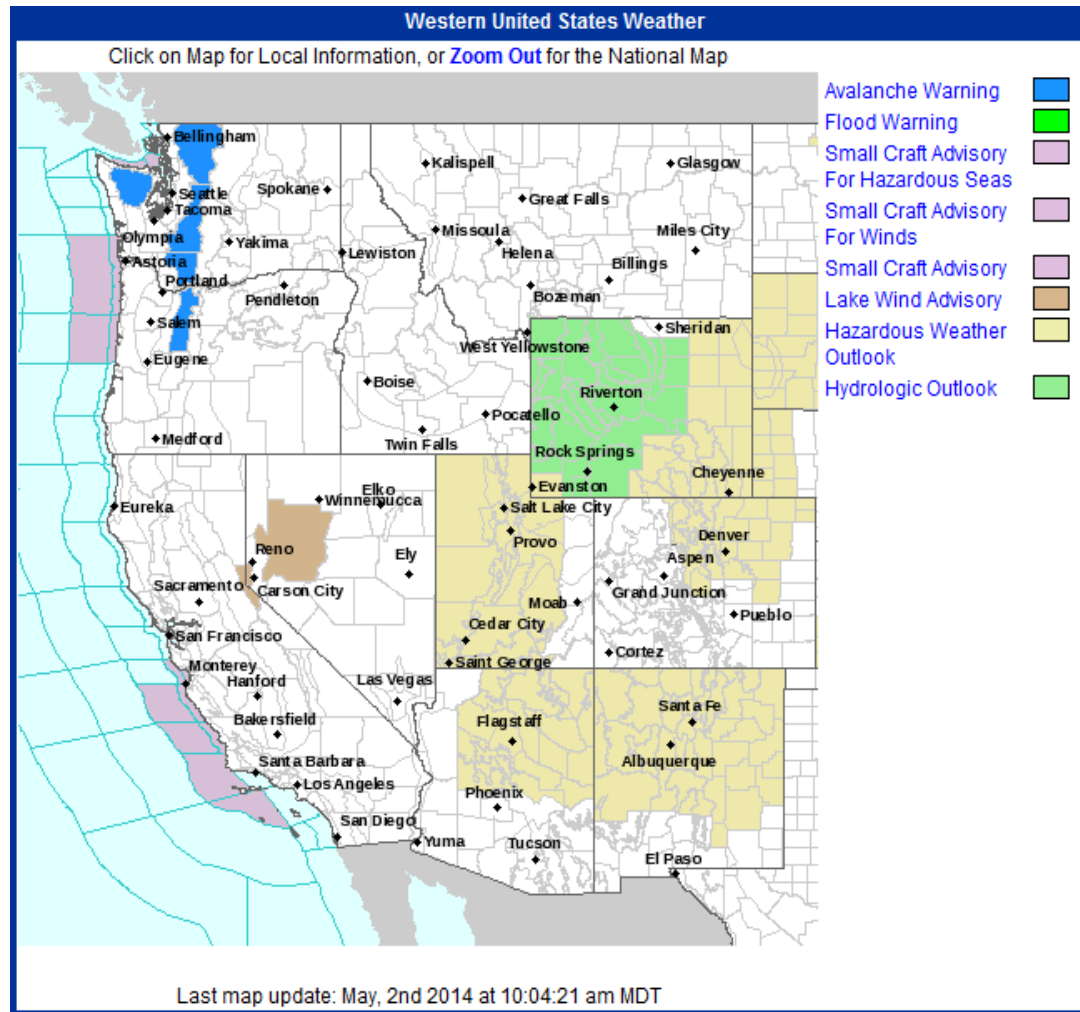

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Hot and very dry weather will continue today except near the coast. There will be gusty east to northeast winds to 25 mph near the coastal foothills this morning with gusty west winds to 20 mph in the afternoon and early evening. Slow cooling for Saturday with greater cooling and a return and deepening of the marine layer for Sunday into next week with areas of night and morning coastal low clouds and fog. Continued cool for Wednesday and Thursday then warming for Friday. There will be gusty west winds in the mountains and deserts at times for Monday through Thursday with the strongest on Tuesday.

Southeast California Weather:

An area of high pressure will provide sunny skies and dry conditions through Sunday. A trough of low pressure in the Pacific Northwest will dampen the ridge on Sunday and provide an increase in southwest winds. Temperatures will be around 10 degrees above normal through the weekend.

FIRE ACTIVITY

Southern California

Etiwanda Fire, Rancho Cucamonga, San Bernardino County

Fire Information

- Size: 1,627 (No change) acres, 53% (No change) contained
- [Heavy demobilization of resources expected today](#)
- Structures Threatened: 1000 mixed commercial and residential
- A Cal OES Fire Assistant Chief is on scene
- A Unified Command is in place consisting of USFS, Cal Fire, Rancho and Cucamonga Fire

FIRE ACTIVITY

Etiwanda Fire, Rancho Cucamonga, San Bernardino County Emergency Management: (Cont.)

Evacuations / Shelters

- All mandatory evacuations have been lifted.
- All shelters were closed on 5/1 at 1900 hours.

Proclamations:

- April 30 - Rancho Cucamonga proclaimed a local emergency - requesting a Gubernatorial, CDAA and Presidential Disaster Declaration.
- April 30 - San Bernardino County OA proclaimed a local emergency - requesting a Gubernatorial, CDAA and Presidential Disaster Declaration.

FIRE ACTIVITY

Etiwanda Fire, Rancho Cucamonga, San Bernardino County Emergency Management: (Cont.)

Activations

- Southern Region Emergency Operations Center (SREOC) transitioned to Level I activation (Duty Officer status) on 5/1 at 1730 hours.
- San Bernardino County Emergency Operations Center (EOC) transitioned to Level I activation (Duty Officer status) on 5/1 at 1730 hours.
- The City of Rancho Cucamonga transitioned Level 1 activation (Duty Officer status) on 5/1 at 1900 hours.
- No requests for state assistance have been made to the REOC.

California - North Area 7 Day Significant Fire Potential

Fuel Dryness

-  Moist - Little or no risk for large fires.
-  Dry - Low risk of large fires in the absence of a "High Risk" event.
-  Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
-  Data Unavailable.

Predictive Service Area	Thu May 1	Fri May 2	Sat May 3	Sun May 4	Mon May 5	Tue May 6	Wed May 7	Thu May 8
NC01 - North Coast								
NC02 - Mid Coast								
NC03A - Bay Area-Marine								
NC03B - Diablo/Santa Cruz Mtns								
NC04 - Northwestern Mtns								
NC05 - Sacramento Valley								
NC06 - Northeast CA								
NC07 - Northern Sierra								
NC08 - East Side								

Fire potential is slightly elevated at lower elevations, and across NE CA and Eastside PSA's where gusty SW winds and RH below 15% will be common over the next few afternoons.

California - South Area 7 Day Significant Fire Potential

Fuel Dryness

- Moist - Little or no risk for large fires.
- Dry - Low risk of large fires in the absence of a "High Risk" event.
- Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
- Data Unavailable.

Predictive Service Area	Thu May 1	Fri May 2	Sat May 3	Sun May 4	Mon May 5	Tue May 6	Wed May 7	Thu May 8
SC01 - Eastern Sierra								
SC02 - Central Sierra								
SC03 - Southern Sierra								
SC04 - Sierra Foothills								
SC05 - Central Valley								
SC06 - Central Coast Interior								
SC07 - Central Coast								
SC08 - South Coast								
SC09 - Western Mountains								
SC10 - Eastern Mountains								
SC11 - Southern Mountains								
SC12 - Lower Deserts								
SC13 - Eastern Deserts								
SC14 - Central Mojave								
SC15 - Upper Deserts								
SC16 - Northern Deserts								

The potential for large fire will decrease substantially today as winds become light. However, the well above normal temperatures and very low humidity will allow for moderate to heavy initial attack activity to continue. **There will be an elevated risk for large fire across the desert slopes this weekend as strong westerly winds combine with widespread single digit humidity.**

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

“Fix 50” Information

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction is scheduled on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.

2014 Project Dates

Roadway Construction Timing:

Eastbound Highway 50: April 22 – May 21

Phase 2: May 2 - May 21

- During Eastbound, Phase 2 (May 2 – 21), the following ramps will be closed: - 16th Street On-Ramp - Connector ramp from eastbound Highway 50 to southbound Highway 99 - Connector ramp from eastbound Highway 50 to eastbound Business 80
- At least 3 lanes will be open
- Westbound traffic will be fully open as normal with no impact.

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

On-Ramp and Connector Closures: There are additional traffic restrictions during Eastbound Phase 2 due to additional ramp closures. The following ramps and connectors will be closed throughout Phase 2:

Eastbound Highway 50 On-Ramp closures:

- 11th Street On-Ramp
- 16th Street On-Ramp

Eastbound Highway 50 Connectors to:

- Southbound Highway 99
- Eastbound Business 80 (Capital City Freeway)

Hornet Drive Detour: The suggested detour for motorists and commercial vehicles looking to access southbound Highway 99 or eastbound Business 80 from eastbound Highway 50 is to take Eastbound Highway 50 to Exit 9 (marked Howe Ave. / Power Inn Rd.) Stay in the right lane to use the California State University loop exit, which is before Howe/Power Inn. This loop will take drivers onto Hornet Drive, where they can then turn left onto the westbound U.S. Highway 50. Drivers can then proceed on Highway 50 to either Highway 99 or Business 80. Detour signs will direct drivers through the detour. Motorists should allow an extra 10 minutes to take the detour in addition to congestion delays going through the Fix50 work zone.

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Drivers going to the Sacramento Republic FC's soccer games on May 3 and 17 from eastbound Highway 50 will also need to allow extra time for the detour as well as for traffic congestion from the game.

Westbound Highway 50: May 27 – June 25

Phase 1: May 27 - Jun 10

- At least 3 lanes will be open
- Eastbound traffic will be fully open as normal with no impact

Phase 2: June 11 - June 25

- During Westbound, Phase 2 (June 11-June 25) the following ramps will be closed: - 16th Street Off-Ramp - Connector ramp from westbound Business 80 to westbound Highway 50
- At least 3 lanes will be open
- Eastbound traffic will be fully open as normal with no impact

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

Alternate Routes:

During work in the EASTBOUND direction (April 22 – May 21):

If traveling from Elk Grove/Laguna to Rancho Cordova/Folsom:

- Use Freeway-99 North to US-50 East
- Do **not** use I-5 North to US-50 East

If traveling from Davis to Downtown Sacramento:

- Use I-80 to I-5 South, to Richards Blvd or “J” Street off ramps
- Do **not** take I-80 to US-50 East

If traveling from Natomas/Davis to Rancho Cordova/Folsom:

- Use I-80 East to Watt Ave exit-South to Business-80 on-ramp to US-50 East.
- Do **not** use I-5 to US-50 East.

If traveling through the project area during Phase 2 (Closed connector ramps to Business-80 and Freeway-99):

- Use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West

[Back to Front Page](#)

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

Alternate Routes: (Cont.)

During work in the WESTBOUND direction (May 27 – June 25):

If traveling from Rancho Cordova/Folsom to Downtown Sacramento:

- Use US-50 West to Business-80 North to “N” or “H” Street off-ramps
- Do not stay on US-50 West after Business-80 interchange

If traveling from Elk Grove/Galt to Downtown Sacramento:

- Use I-5 North to “J” Street off ramp
- Do not take Freeway-99 North to US-50 Westbound

If traveling from Rancho Cordova/Folsom to Natomas/Davis:

- Use US-50 West to Business-80 North to Watt Ave North, to I-80 West.
- Do not use US-50 West to Davis or US-50 West to I-5 North to Natomas.

If traveling through the project area during Phase 2 (Closed connector ramps from Business-80 to US-50 West):

- Use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West

***Motorists traveling to the Lake Tahoe area can avoid the project area congestion by taking I-80 E

CAL OES DROUGHT ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

Near-term Outlook for Precipitation: Warmer weather will occur across the state this week with no expected precipitation.

** It is possible that last week's storms will be the last storms of the state's traditional rainy season. As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.**

Situational Summary (Cont.)

Information as of 4/28/14

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on April 1, recorded California snowpack at 32% of normal. A more recent update using automated devices shows snowpack at 21% of normal as of April 27.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2850** Mariposa County Sheriff's Office is requesting ground search resources to locate a Missing Person (MP). The resources are being requested for a search to begin on 5/1/14 at 0700 hours. Incident Command Post has been established. Cal OES Law Duty Officer is coordinating resources.
- **2014-LAW-2843** Plumas County Sheriffs Office (PCSO) is requesting Search and Rescue resources in support of a Humans Remains search Southwest of Lake Almanor. County SO will be providing 2-3 Humans Remains Detection (HRD) K9s for search efforts currently being planned for this coming weekend, 5/3/14.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs

CAL OES MISSIONS

Closed Cal OES Missions

- **2014-LAW-2846** International Emergency Rescue Coordination Center (IERCC) advised of a Personal Locator Beacon (PLB) sounding in San Bernardino County. San Bernardino County Sheriff's Office has been contacted. [Registered Owner came across unconscious hiker with a bee sting. Subject located by San Bernardino Country SO. Mission closed.](#)
- **2014-FIRE-2823**
On 04/30/2014 at 0635 hours, the Warning Center received FEMA US&R Demobilization Orders 2014-0027 for the nine US&R Task Force Members from the White Incident Support Team (IST) deployed in response to the Arkansas Tornado Incident. [Mission closed.](#)

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A FEMA evaluated exercise will be held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

Tropical Cyclone Simulation Exercise Plan (May 8, 2014)

The National Weather Service (NWS) offices and National Hurricane Center (NHC), Weather Forecast Office (WFO) San Diego, WFO Oxnard, Local Emergency Managers, Cal OES, Cal OES Warning Center, FEMA Region IX, and Western Regional Operations Center (ROC) will participate in a tropical cyclone simulation exercise on May 8, 2014.

The scenario for this exercise will use NHC developed Advisory package materials as were developed for the May 2013 exercise within NWS. The scenario depicts a tropical cyclone moving NNW along the west coast of Baja California and eventually re-curving into southern California. The NHC Advisory package materials have been shared with WFO San Diego and WFO Oxnard. The exercise will be compressed into one day (May 8). Due to the limited time available, participants will utilize only two of the Advisory Packages (To Be Determined), one simulating the storm a few days away, and the second with the storm much closer, with warnings/watches “in effect”.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
